## DEPARTMENT OF CIVIL ENGINEERING

### Activity Supports Employability/Entrepreneurship/Skill Development

**Course Code: 19PGM 801**

**Course name: Pedagogical studies**

The following activities are conducted in the course for the students to support Employability and Skill Development. The students are practiced to provide the solution for those

problems. Group Assignment activity promotes the teamwork among the students.

- Group assignments are given in the following areas;
  - Motivation and engagement's role in pedagogy
  - Reflective teaching
  - Correlation between Tradition based education System and outcome based education.
  - Teacher centric approach, Learner centric approach and combined approach.
  - Scope and applications of ICT tools in Teaching learning process
  
- Mind Mapping activity was done to create the awareness about the various parameters and elements connected with the course. This stimulates thinking ability and Technical discussion ability among the students. Such practices of bringing the solution to the problem under study and the technical discussion promote the technical competency among the students. This facilitates the students to face the employment opportunities.
  
- Case study presentation activity was done to provide training on TLP. Each student is given opportunity to present the case studies to mimic the reflective teaching method.
