DEPARTMENT OF CIVIL ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

Course Code:15UCE905 Course name: Traffic Engineering & Management

The following activities are conducted in the course for the students to support Employability and Skill Development,

- Group Assignment activity promotes the teamwork among the students. Group assignments are given in the following areas;
 - Sampling methods
 - Stratified sampling technique
 - Correlation among variables
 - Procedures and enclosures of FIR
 - Collision diagram after an accident
 - Applications of Models and statistical methods in Traffic data analysis.
 - Speed, Capacity & LOS studies
 - Relevance and scope of PCU

- Mind Mapping activity was done to create the awareness about the various parameters and elements connected with the course. This stimulates thinking ability and Technical discussion ability among the students.. Such practices of bringing the solution to the problem under study and the technical discussion promote the technical competency among the students. This facilitates the students to face the employment opportunities.
