DEPARTMENT OF AGRICULTURE ENGINEERING

19UAG201 – INTRODUCTION TO AGRICULTURE ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

The following activities are conducted in the course for the students to support Employability.

- Industry and field visit the students were taken to the agriculture machinery industry and to agriculture field to know about the working and function of the machineries which they would use in the field. This improves their knowledge about the machines and give them a clear idea how to use and maintain them in the field. They also provide students a good opportunity to gain full awareness about industrial practices. Through industrial visit students get awareness about new technologies. This provides student a practical perspective on the world of work. This improves their employment skills.
