PULLOOR, KARIAPATTI – 626 115.

DEPARTMENT OF BIOMEDICAL ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

SUBJECT CODE WITH NAME - 15UBM706 Hospital Training

The following activities are conducted in the course for the students to support Employability and Skill Development,

Student Presentations - Students are divided into groups and each group are entrusted to give a classroom presentation on the topic in which department they have visited in the hospitals. Such activities help students to tailor communication styles for different audiences, improve their listening skills and also enhance their active learning.

Internship in Hospitals - By undergoing internship in the hospital for at least a period of one or two weeks, students are exposed to the working principle of the Biomedical instruments in hospital and the day-to-day problems they face while operating the instruments. This helps students to become industry-ready who can be straightaway employed in different roles.
