DEPARTMENT OF BIOMEDICAL ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

SUBJECT CODE WITH NAME - 15UBM804 Project Work

The following activity is conducted in the course for the students to support Employability and Skill Development,

Student Presentations - Students are encouraged to identify innovative topics that are socially and economically relevant in the present-day context. In this approach, Students gain expert knowledge in societal issues and are encouraged to find solution for the identified problem statement. Based on the collected information, students present their innovative ideas and solutions in front of all other students. Such activities improve their designing and making presentations skills, improve their listening skills and also renew their motivation and confidence
