

SETHU INSTITUTE OF TECHNOLOGY
(An Autonomous Institution)
PULLOOR, KARIAPATTI – 626 115

SUB.CODE: 19UCH405

SUB.NAME: CHEMICAL PROCESS INDUSTRIES

CATEGORY: EMPLOYABILITY

- The Course is designed to impart the knowledge on various aspects of production engineering and enable the student to understand the practical methods of production in a chemical factory.
- Also aims at facilitating the student to understand the various industries applications and needs.
- Chemical industry is one of the oldest industries and playing an important role in the social, cultural and economic growth of a nation and in providing basic needs of humankind - food, shelter and clothing have become an indispensable part of our life.
- In an "engineering" sense, a chemical process is a method intended to be used in manufacturing or on an industrial scale (see Industrial process) to change the composition of chemical(s) or material(s), usually using technology similar or related to that used in chemical plants or the chemical industry.
