(An Autonomous Institution| Accredited with 'A' Grade by NAAC)  
PULLOOR, KARIAPATTI – 626 115.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

**Activity Supports Employability/Entrepreneurship/Skill Development**

**Subject Code:** 15UCS607

**Subject Name:** Technical Project

The following activities were conducted in the course for the students to support Employability/Entrepreneurship/Skill Development.

**Mini Project:** Project-based learning has proven to be one of the most effective ways to engage students and provide a practical application for what they're learning. Project based learning is to thinking about alternate ways to enable students to:

- Produce authentic assessments,
- Create and study something that was interesting and engaging for them, and
- Provide some real-world learning experiences.

Project-based learning not only provides opportunities for students to collaborate or drive their own learning, but it also teaches them skills such as problem solving, and helps to develop additional skills integral to their future, such as critical thinking and time management
