DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

Subject Code: 15UGE710

Subject Name: Multi-Disciplinary Project Phase I

The following activities were conducted in the course for the students to support
Employability / Entrepreneurship / Skill Development

- Multidisciplinary project helps the students to offer multiple perspectives and a broad range of expertise for generating unique and creative solutions to solve real-world problems.
- Multidisciplinary project involves the students in a coordinated effort that brings together several disciplines to provide complementary contributions in the service of a common goal.
 - A multidisciplinary team is creative by nature. Every member makes a viable contribution with his skill and knowledge, and all this shared knowledge inspires them to go beyond their limitations and find better solutions.
- Team members inspire and motivate everyone in their team so that they become much better.
