Activity Supports Employability/Entrepreneurship/Skill Development

Subject Code: 15UIT503

Subject Name: Graphics and Multimedia

The following activities were conducted in the course for the students to support Employability/Entrepreneurship/Skill Development

- Think – Pair - Share activity, a form of Collaborative learning helps to understand the concepts gradually. It helps the students to share their ideas in front of the class which may lead to employability.

- Assignment activity - students are assigned a task as a part of their homework. It is a great way to judge the ability and understanding of an individual student towards a subject matter which helps the students to solve and predict the real world problems which support their skill development.
