DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Activity Supports Employability/Entrepreneurship/Skill Development

Subject Code: 15UIT924

Subject Name: Agile software Development

The following activities were conducted in the course for the students to support Employability/Entrepreneurship/Skill Development.

- **Group Assignment:** We are given assignments to the students, which helps to acquire the more knowledge of the concepts and implantation of the development of software product.
- **Case studies:** A case study is an exercise that brings to life real business scenarios by addressing an organization. In general, a case study means a *detailed account of a company, industry, person, or project over a given amount of time. It helps the students to share and create ideas which support skill development.*
