

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING
Activity Supports Employability/Entrepreneurship/Skill Development

Course Code : 19UEE304
Course Name : Analog Electronics
Academic Year : 2020 – 2021 (ODD) Class : II Year

Category	Employability
Activity	Animated Videos
Topic	Working of 555 Timer IC

Working of 555 Timer IC using proteus

Outcome	Analog Electronics is vital in many different areas and is essential to power design, op-amp circuits and filters. It provides an enhanced set of skills that will benefit the students in all electrical and electronics engineering roles. It will help to improve the technical knowledge on the characteristics and applications of semiconductor devices leads to employability.
