DEPARTMENTOF INFORMATION TECHNOLOGY

Activity Supports Employability/Entrepreneurship/Skill Development

The following activities are conducted in the course "15UIT504 – Analysis and Design of Algorithm" for the students to develop Skill Development.

Think-Pair-Share activity on the topic of "Fundamentals of the analysis of Algorithmic Efficiency". This activity encourages the students to think individually, discuss about the exercises and find the solution for the particular exercise, share their solution and ideas to analyze the algorithmic efficiency to their classmates. This activity helps them to motivate the teamwork, communication level and develop skill development to the students.
