An Autonomous Institution

Pulloor, Kariapatti –Taulk. Virudhunagar District - 626115

DEPARTMENT OF INFORMATION TECHNOLOGY

Accredited By NBA, New Delhi

Activity Supports Employability/Entrepreneurship/Skill Development

15UIT508 – Data Warehousing and Data Mining Laboratory

The following activity is conducted online in the course to facilitate the students to promote Entrepreneurship.

Mini project-based learning is a successful teaching technique that benefits students in many ways, including critical thinking, project management, and self-confidence, as well as creative thinking abilities for developing new product designs and project chances. Students have a better knowledge of how to handle projects and assignments as a result of this assignment, and their observation, analytical, communication, and peer collaboration abilities have all improved significantly. They learn to work in a team, take initiative and accept responsibility by experiencing what it means to manage a real enterprise. Because there is a significant demand for Application creation in the market, this lab component encourages them to seek entrepreneurial endeavours and career options.
