E-Governance Report (2021 – 22)
ERMS (Educational Resource Management System) portal is a highly secure website where our management, faculty, staff, and students with the appropriate access privileges can share and access information that is within the reach of our Institution. Clairvoyant Software Technologies continued to be the ERP partner of the institution and they provided support for the following modules:

- Administration
- Finance and Accounts
- Student Admission and Support System
- Examination

According to the need of the day, the Governing Council of Sethu Institute of Technology decided to implement e-governance to better manage the Institution for the academic year 2021 - 2022. The same developer Clairvoyant Software Technologies Pvt. Ltd. has updated the software with the following modules.

- Automation with WhatsApp Module
