ABOUT THE INSTITUTION OF ENGINEERS (INDIA):

The Institution of Engineers (India) or IEI is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform from which to share professional interest. IEI has membership strength of over 0.8 million. Established in 1920, with its headquarters at 8 Gokhale Road, Kolkata - 700020, IEI has served the engineering fraternity for over nine decades. In this period of time it has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from 123 Centres located across the country. The Institution provides grant-in-aid to its members to conduct research and development on engineering subjects.

IEI conducts Section A & B Examinations in different Engineering disciplines, the successful completion of which is recognized as equivalent to Degree in appropriate field of Engineering of recognized Universities of India by the Ministry of Human Resources Development, Govt. of India. Every year as many as 90000 candidates appear for these exams. For details, please see: www.ieindia.org

About Sethu Institute of Technology

A twenty four years old Engineering college serving the Educationally, Economically and Industrially backward rural mass. This institute imparts technical education based on three cardinal principles: Knowledge, Service and Progress. It was established in the year 1995, offering currently 9 UG courses and 5 PG courses. College has been accredited with 'A' grade by NAAC.

Objective of the Programme & Important Dates

Internet of Things is an emerging technology which enables realization of smart cities, home automation, smart healthcare, smart agriculture, smart grid etc.,. IoT enables integration of the processes of device identification, sensing, computation, storage, networking and communication. The significant research fields in IoT are architecture development, computing devices, computation algorithms, communication protocols, heterogeneous networks, network security, sensor technology, power conservation, business models and so on. This seminar aims at providing an opportunity for the participants to enrich their knowledge and skills in the cutting edge technologies of IoT. It provides a platform to share the innovative ideas of the experts and participants and identifying the methods of implementing them. The topics to be covered in the seminar includes

Architecture of IoT

- Sensors and Actuators
- Cloud computing
- Web Services
- Security in IoT
- Hands-on session on Developing IoT applications

Innovations and challenges in IoT

- **Paper presentation**

Papers are invited, related to this topic on or before 25.7.19 in IEEE format.
