About National Service Scheme (NSS)

The The National Service Scheme (NSS) is a Central Sector Scheme of the Government of India, under the Ministry of Youth Affairs & Sports. It provides opportunities for students in 11th and 12th grades of schools at the +2 Board level, as well as students in technical institutions, graduate, and postgraduate levels at colleges and universities across India to participate in various government-led community service activities and programs.

The primary objective of NSS is to develop the personality and character of student youth through voluntary community service. "Education through Service" is the core purpose of the NSS.

NSS was launched in 1969 in 37 universities, involving about 40,000 volunteers. It has now expanded to cover 657 universities and 51 +2 councils/directorates, encompassing 20,669 colleges/technical institutions and 11,988 senior secondary schools. Since its inception, over 7.4 crore students have benefited from NSS.

Not me.... But you

NSS BADGE

“ PROUD TO SERVE THE NATION ”

- All youth volunteers who choose to serve the nation through NSS-led community service wear the NSS badge with pride and a strong sense of responsibility towards aiding the needy.
- The Konark wheel on the NSS badge, with its 8 bars, symbolizes the 24 hours of the day, reminding wearers to be prepared for national service around the clock.
- The red color in the badge represents the energy and spirit displayed by NSS volunteers.
- The blue color symbolizes the cosmos, of which NSS is a small part, committed to contributing to the welfare of humanity

MOTTO

“NOT ME BUT YOU ”

- The National Service Scheme (NSS) stands as a beacon of selfless service with its inspiring motto, **"Not Me But You."** This guiding principle encapsulates the essence of NSS philosophy, emphasizing the welfare of others over personal gain. It calls on volunteers to serve their communities with empathy and dedication, fostering a spirit of social responsibility and unity.
- **"Not Me But You"** is more than a motto; it's a call to action. It encourages individuals to prioritize the greater good, nurturing civic duty and community engagement. Through this mantra, NSS aims to cultivate compassionate and proactive citizens, prepared to make positive contributions to society.
- By embracing **"Not Me But You,"** NSS volunteers embody the spirit of altruism and cooperation, creating a meaningful impact on the world around them.

Not me.... But you

Positive Outcome of a Volunteer

An NSS volunteer, actively engaged in community service programs at either the college or senior secondary level, gains invaluable exposure and experiences that shape them into:

- **An Accomplished Social Leader:** Through organizing and participating in various community service projects, NSS volunteers develop leadership skills. They learn to motivate and inspire others, coordinate efforts effectively, and lead by example in addressing societal challenges.
- **An Efficient Administrator:** Volunteers often take on administrative roles within NSS projects, honing their organizational and managerial abilities. They learn to plan events, manage resources, and navigate logistical challenges, fostering efficiency and effectiveness in project execution.
- **A Person Who Understands Human Nature:** By closely interacting with diverse communities and individuals, NSS volunteers gain profound insights into human behavior and societal dynamics. They cultivate empathy, understanding, and the ability to connect with people from different backgrounds, enriching their perspective on social issues.

NSS volunteers not only actively contribute to community development but also emerge as empowered individuals equipped with leadership, administrative, and interpersonal skills. Their experiences shape them into future leaders who are compassionate, proactive, and committed to making a positive impact on society.
